## CITY AND COUNTRY NEWS-PAPERS.

In the course of an editorial devoted to a comparison of metropolitan and interior editorial writers, the Sacramento Bee uses the following language:

"And this brings us to the contemporary of a fact that is growing stronger and far more pronounced every year: that the interior papers of this state are much better edited than are the great metropolitan dailies. We do not claim that the reason is that the editors of the interior are better writers than those who fill the editorial columns of the San Francisco papers, although they are certainly capable as capable and versatile. Their advantage is that they have a few swing, more liberty, more independence. If there is anything in them, it is encouraged and brought to the surface, and their best ideas are not smothered."

The *Fr.* is right in its conclusion, as every person who has had opportunity to interpenetrate the subject knows. So true is it that the editorial writers of metropolitan sheets are hampered by the shifting policy of all but unapplied papers that the supreme act of editorializing on those papers is the act of writing easily. Their editorials do not commonly represent the honest thought and conviction of the writers, but rather the thing that is in the managing editor's opinion can safely be said from year to year generally is the thing that is as lacking in conscience and conviction as a cut-throat. The inane editorial pages of the metropolitan papers are their own advertisement of the effects of the pulley.

And these papers pay dearly for their privilege of being "safe" in their editorial comment, for the price they pay is the loss of public confidence. The people are not deceived; they recognize the absence of conviction in these writings, and are not influenced by them. Illustrations of the lack of influence which results from this consciousness editorializing are not infrequent, but probably the most striking one of recent years was seen in the election of Adolph Sutro to the San Francisco mayoralty. Every daily paper in that city opposed Mr. Sutro's election, and he was elected by an overwhelming majority. The editorials of the papers were taken for what they were worth—nothing. They had battered public confidence for the privilege of being "safe," and they paid the price. Some such price they pay right along.

Where could you turn today to find a paper of the type of the *New York Tribune* under Horace Greeley or the *Springfield States* under Samuel Bowler? Certainly you could find none on this coast, and you would hardly find one on this side of the Atlantic. Such papers have disappeared under the pressure of the proprietary demand for "safe" writing; they have vanished under the beguiling influence of cash or political association. But the people are not deceived; they know it.

It is not divulging the secrets of the profession to say that it need not be supposed that interior editorial writers are absolutely without "strings on them." There is no country editor so humble that no unfortunate influence of party or creed or something else will creep into his editorial writings. Policy is not without its suggestions in all standards. Not it undoubtedly is a fact that such influences generally are rarely less potent among interior writers. If they cannot say all that they would like, they, at least, can say some part of it, and in that respect they have the advantage of their city brethren, who can write almost nothing of themselves. They are parts of a machine, and the machine is without a controlling conscience.

The strangest part of it is that, notwithstanding these evident facts, the city attracts a majority of newspaper workers. They must there become mere parts of a machine, but they do not stay away on that account. They must lose their individuality, but whether or not they think that the loss would be little, they are not deterred by the fact. In the average they are not paid as well there as in the country, but this fact, too, they overlook. The city lures them, and they go to it. In the meantime, we of the interior justly may congratulate ourselves on the advantages which are not enough to appreciate.

The matter has not been definitely decided but it seems likely that July 31 instead of the 31st will be selected as the day for W. J. Bryan to speak in Fresno. The matter of dates is not especially important, but it is evident that there would be larger crowds present both at the reception of Bryan and the celebration of the Fourth if the latter should come on the 31st. The double attraction would keep a large majority of the visitors here for two days if one event followed the other without an intervening day.

As yet no movement is on foot for a celebration of the Fourth here. It is not too late to undertake "a moving, by time" the *Reino* here to suggest that we go out of town to some place—either out to some place or take the train to Fresno—and give the hot streets a rest for a day.—*Dave Rife*

Why not arrange an excursion, come to Fresno and join in the biggest celebration ever held in the valley?

The Missouri legislator who introduced a bill to prohibit driving on the part of railroad conductors ought to have considered the feelings of the girls before backed. Anybody who supposes that the conductors play a game of solitaire in their flitting is laboring under a delusion.

CHAMBERLAIN ALPHEUS OF THE Democratic state central committee is now referred to as a "subliminal" personality. A good many of the faithful prefer that Maguire should be in charge rather than take chances on the governorship.

DUNN gets a respite, but the public will get none till he is either hanged or hanged loose.

Why not arrange an excursion, come to Fresno and join in the biggest celebration ever held in the valley?

The Missouri legislator who introduced a bill to prohibit driving on the part of railroad conductors ought to have considered the feelings of the girls before backed. Anybody who supposes that the conductors play a game of solitaire in their flitting is laboring under a delusion.

CHAMBERLAIN ALPHEUS OF THE Democratic state central committee is now referred to as a "subliminal" personality. A good many of the faithful prefer that Maguire should be in charge rather than take chances on the governorship.

DUNN gets a respite, but the public will get none till he is either hanged or hanged loose.

## BIMETALLISTS ENCOURAGED.

The reception of the American international bimetallic commission in France will hardly be described as discouraging by the opponents of that monetary policy.

Stokess stands on his dignity in the invitation he extends to Mr. Bryan, but would probably not more in his standing in on the expense of a special train.

REVENUE HARRISON is learning to ride the bicycle. And what excuse can Benjamin give for such giddiness at a time when he can get all the exercise he needs in treading a busy carpet?

MARSHALL WOOD says that he is instructed to place the Chinese town best to destroy all the lottery tickets they could find. Honor to whom it is due. The "wide open" Chinese lottery must go.

SPENCER REED is said to habitually mispell the most ordinary words. That is not a very serious defect, however, seeing that he knows how to string words together in a way that causes his bitterest enemies to envy him.

A coin quality of silk is now manufactured in Europe from the fiber of the spruce tree at one-fifth of the cost of the silk worm product. To spruce up silk will be an inexpensive matter at that rate.

The *New York Herald* refers to General Miles as "that colorful general." General Miles may indeed be in considerable color and military red tape, but he has done too much hard service as a reader to be injured in public estimation by slurs of that kind.

Text report that the hot weather at Bakersfield "busted" the head of the Salvation Army's big brass drum is a libel on the climate at the upper end of the valley. It was the religious fervor of the chief musician that caused the disaster. The temptations that nothing do with it.

REYNOLDS WATKINS says he is going to live in Peru because the winters are too long and cold in Colorado. This is an unfair reflection on the climate of the continental states, and Coloradans will not forget that their salubrious climate will not fight as long as enough votes and guns could be found to keep the emphysematic Mr. Watkin in office.

People who are waste delaying a trip to the Nashville exposition should go at once. The big show is in full blast, and the Governor of Georgia is soon to be there with a staff of eighty military gentlemen, every one of whom is a colonel. It will be worth a trip across the continent just to see the majestic maneuvers of that gubernatorial contingent.

The person who, being in his right mind, murders himself is exactly as good a criminal as the one who murders another.—*Udell's News.*

Suicide is seldom if ever justifiable, but it cannot be classed in the same category with murder. The person who commits suicide is usually a weakling and a coward, but he has not necessarily any of the vicious instincts of a murderer.

DON SHAH of Persia is in poor health, which is not surprising when the load of titles which he carries is taken into consideration. Besides the royal designation of Shah he is known to his subjects as the King of Kings, the Shadow of God, the Center of the Universe, Exalted Like the Planet Saturn, Well of Science, Footpath of Heaven, Sublime Sovereign, Whose Standard is the Sun, Whose Splendor is that of the Firmament, Monarch of Armies Numerous as the Stars. Mortal man cannot be expected to endure all that very long.

THE approaching midsummer dullness in the state's metropolis has been somewhat relieved by a liberal sum for damages in the sum of \$1,000,000 brought by Clean Sweepers against the *Examiner*, the new journal of the coast. The gift of the ground upon which the suit is brought is a charge that Mr. Spreckels had coerced certain stockholders in the sugar company to sell their stock in order that it might be transferred to the sugar trust, which charge Mr. Spreckels declares to be false and damaging. Concerning the merits of the case the *Republican* has no knowledge, but it considers it unfortunate that a leading newspaper and a man who is doing what Mr. Spreckels is to develop the resources of the state should be pulling in opposite directions.

THE fight over the Zante current clause in the fruit schedule of the Wilson bill is still on. The importers have declined to accept the decision of Judge Morrow as final; the question will be reopened before the United States circuit court in New York, and probably go from there to the court of appeals. If Judge Morrow's decision is overruled the government will have to pay from \$200,000 to \$300,000 to the importers. The whole matter is due, first, to an unfortunate blunder in not including "all other" currents with those designated as Zante, and secondly, to the strained construction which the importers are endeavoring to put upon the designation that was made. The new tariff will, of course, remedy any such defects as may be found to exist in the Wilson tariff, but in the meantime it is to be hoped that the foreign producers and importers will not be able to profit by a decision unnecessarily technical in its nature.

IT would be enquired from the tone of Democratic criticism that the McKinley administration had been struggling with the political problems of the day for three or four years instead of less than three months. When a new administration takes the ship of state stranded on the rocks, with its bottom "stove in" and the rigging dismantled, it cannot reasonably be expected that she will be gaily plunging the racing main in a fortnight. It takes time to recover from four years of disaster, poverty, and misfortune are doubly exasperating, a little retrospection will satisfy reasonable men that better progress could hardly be expected under the circumstances. The work of changing the tariff for a deficit to one for revenue and protection is well under way, the international bimetallic commission is vigorously at work, and decisive action in the Cuban question may reasonably be expected in the near future. The Republican administration may or may not achieve all that is hoped for, but it is within less than three months from the time of its inception it is manifestly unjust and unreasonable.

CHAMBERLAIN ALPHEUS OF THE Democratic state central committee is now referred to as a "subliminal" personality. A good many of the faithful prefer that Maguire should be in charge rather than take chances on the governorship.

DUNN gets a respite, but the public will get none till he is either hanged or hanged loose.

## A HORRIBLE STORY.

A story which comes from Havana seems almost unbelievable, and yet it is told as true. Here it is, as the dispatch tells it:

At San Antonio de los Baños, where, as elsewhere, the people are starving, six countrymen who had been confined in the town two days without food asked permission of the military commander to go a mile beyond the fort for vegetables. The permission was granted, but they had been gone but a short time when a company of guards was sent out "to operate against the enemy."

Thenceforward in this instance proved to be the six countrymen, who were all killed by the guerillas. Thus far the story is bad enough, but it becomes vastly worse, for it is reported that the guerillas took the bodies of the six men back to town with them, cut them into pieces and placed them in a table in one of the public streets, with this inscription displayed above the fragments of what had been human beings but a short time before:

CUPIA POCOS PARA EL PAIS, MEJOR QUE AMERICAN PARA EL ENEMIGO.

It is entirely possible that this story is a lie, in which case its atrocious retelling should be captioned and qualified accordingly. But it is also possible that it is true. In any event, the story has been told and has been given to the American public as truth, and it should not be allowed to pass with the mere telling. If such barbarity as would disgrace a Fiji islander of years past is being practiced on an island which lies but a little more than an hour's flight from our shores, the American people owe it to themselves to see that it is terminated. We have vented a large amount of righteously indignation on the subject of European indifference to Turkish atrocities, but no tale that has been borne to our ears from the blood-soaked land of Armenia has elicited in our country such a story told of our island neighbors.

It matters not who sympathizes with the Spaniards in their attempt to hold the rebellious Cubans, and it matters not if these island people are a gross and illiterate lot, they have the form of humanity, and while they hold it mankind owes it to them to see that their slaughtered bodies are not converted into "pig meat" for the market place. This is the duty that mankind owes to them, but it would mean heavily on us, who are their nearest neighbors, and evasion of it can only come through national dishonor.

The senate has passed the Cuban resolution, and pending further action on that line the administration should set on foot an inquiry into the absolute truth or nature of the horrible stories of Spanish atrocity which are told in the papers in these days. If they are true or not in the matter is clear, and if they are not true we all wish to know it.

If Theodore Durrant's mother wishes to see him hanged she has that privilege, but it does seem that the high duties of her motherhood should cease just short of that point. In that last moment her presence surely can be neither a comfort nor a consolation to him. Indeed, if this young man has no compassion of those humane feelings to which we all are supposed to be heir, the presence of the one who brought him could only add to the anguish which he must feel as he faces the great mystery of death. Why, though, he was an innocent of crime as the babe in whose germinal mind is only room for wonder at the things of life, would with his mother go him hanged? Who would not give all that remained to life of life to have her away at such a time? The deepest feelings of humanity revolt at such an association of motherhood and shameful death. If Mrs. Durrant insists on this privilege, she will leave a small room for wonder where Theodore's abnormal nature found its origin. For her own sake and for her son's sake, it will be far better if she changes her mind.

"Is her latest letter to Phoebe Conine advice every girl to marry a husband?"—*From a letter exchange.*

It must be admitted that this is much wiser than it would be to advise her to marry a wife.

The extension of the Valley Road's regular passenger service from Fresno to Hanford will greatly facilitate the transaction of business between those thriving communities.

Lincoln Day was appropriately

marked by the holding of Wage. Lin Day is a new institution, and it through the efforts of the Lincoln Movement League of California that state superintendent of public instruction, S. T. Black, was induced to i

California has taken the initiative in the matter of a Lincoln monument. It is now the desire of the league, Mr. Black, that the state be the first to adopt and observe a Lincoln day.

the state superintendent of education, the value of the lessons is indicated by the study of the life and character of Abraham Lincoln by the president cannot be estimated. May 28th selected by the league as the day of observance, and it is probable that data will remain permanent. San Francisco, Alameda, Oakland and other held celebrations yesterday in honor

The exercises held at the high school in this city were not elaborate, the program having been arranged on a small scale; but as a beginning it was satisfactory.

Superintendent Roby was in charge of the exercises in the high school. The program opened with a song by the school, and then twenty-six pupils

tions of an epitome of Lincoln's life which appeared in the San Francisco Call last Sunday and had been recommended for the day's exercise. Pupils who read were: Grace Coudy, Mattie Pelley, Benjamin W. Frank, Williams, Forrest, Cunnely, Evelyn Jenks, Mattie Steinwand, Wills, Susan Wheeler, Jefferson, Davis, St. John, Frank W.

Pinkie Shipp, Henry Tupper, McVey, Reube Harrell, William R. son, True Aiken, Alice Wynne, McCardle, George Cummings, Wharton, Alex Joy, Edna Pate, Maude Schaeffer and Henry Brick.

Professor Ruby made an address which he portrayed the greatness of Lincoln as a man, as well as his important connection with the history

country, Mr. Roby called attention to the fact that in Edinburgh, Scotland, a monument to Lincoln stands as a symbol of the honor in which the memory of the great American is held abroad. It was a typical American in the best sense of the term, and the distinction accorded him by the foreign countries was an unusual one. The Professor's remarks were inspiring.

rendered a declamation on Lincoln's character. Clarence Edwards recited an original sketch of the life of the president, and paid a high tribute to worth as a man. Miss Lillian Albright recited Lincoln's famous Gettysburg speech in a very clever manner, in which the program closed with the singing of "America" by the school.

On the second floor the eighth grade pupils held their exercise in the assembly room, under the direction of Principal J. L. Beall. A number of parents were present. The song "The Red, White and Blue 'America,'" after which biog-

high school were read by the following pupils: Maude Scott, Fannie C. Laura Appley, Ursie Higgins, Edwards, Ted Hunt, Herbert, Floyd Burke, Blanche Grainger, Hogan, Alice Harrell, Ruth Water, Ethel Folsom, Maude Baker, Swartz, Katie Walters, Edith Robe, Ruby Stuart, Myrtle Denman, (Miss) Irene Goring, Pearl R.

**Baptist Boys' Brigade Society**  
The Boys' Brigade of the Baptist church gave an enjoyable last evening at the old high building. The following program rendered: Reading, Mrs. K. Ne

recitation, Margaret Young; recitation, Arthur Townsend; recitation, Ralph White; recitation, Mrs. Wood; bayonet exercise, George Rock; comical talk, Rev. Mr. F. The boys did some excellent drill and refreshments were served.

## TO THE HEROIC DEAD

Tribe Paid at Their Graves Yesterday.

## OBSERVANCE OF MEMORIAL DAY

Atlanta Post and the Ladies' Auxiliary Organizations Celebrate Appropriately.

From the Daily Post.

The nation paid its tribute to the heroic dead yesterday, and Fresno joined in doing honor to their brave memory. The local post of the Grand Army of the Republic, assisted by the auxiliary organizations, composed of ladies, held a service, which was also participated in by many who are not members of the society. The decorations at the cemetery were beautiful, the graves being covered with a profusion of floral tributes of love.

On Sunday evening Rev. George C. Gillette of Fowler preached on "Memorial Day" in the old high school building. The members of Atlanta Post, G. A. R., the Women's Club, and the Ladies' Auxiliary of the G. A. R., attended in a body, and there were many other persons present. Rev. Gillette spoke in praise of the heroic dead, and foretold the future of the country, and exhorted the living to be true to the principles of the Republic.

After the service the ladies' auxiliary of the G. A. R. held a social at the home of Mrs. W. H. Wood, where they arranged their graves and placed the floral tributes. The service was held in the afternoon, and the ladies' auxiliary of the G. A. R. held a social at the home of Mrs. W. H. Wood.

One of the strongest and grandest of human emotions is the love of the land that gave us birth. In all ages this love has been the source of noble deeds, and it is the duty of every citizen to love his country and to be true to its principles.

Those were the times that try men's souls—when a cruel and unrelenting war was waged for the sake of a few acres of land. The heroism of our fathers is a source of pride and inspiration to us today.

The speaker concluded as follows: "It is our duty to love our country and to be true to its principles. Let us strive to be worthy of the sacrifices of our fathers."

The exercises closed with benediction by Rev. C. A. Munn, and the service was a most successful one.

A delegation from the W. D. O'Connell, consisting of W. D. O'Connell, J. A. Devin, and T. A. Bell, was present at the cemetery to participate in the exercises.

The graves of the following veterans were decorated: Rev. Peter, Nicholas, W. H. O'Connell, J. A. Devin, and T. A. Bell.
